As noted at ULT, the report could provide more explicit statements of assurance related to OfS conditions of registration. Suggest that the timeline is aligned to that of the Quality and Standards report so that this report can be considered at the same ASEC meeting in October and can be reflected in the annual update on compliance with OfS conditions of registration to the Board in November. Otherwise endorsed.		Jacky Mack

Due to the last minute change of deadline for this report, SUBU is not in a position to provide commentary and therefore cannot also give approval by the deadline today. This is an important report and subject and SUBU will review the report and provide commentary if appropriate early next week. We understand that this therefore may not be able to be taken on board due to the deadline change. <i>Response from Mandi Barron: Noted. If comments are received within deadline and they can be incorporated they will be. If received after the deadline we will follow up any actions arising for the 2021/22 academic year.</i>		Samantha Leahy-Harland
Approve. Noted typo, page 5 point 2.2 'believe' should be 'belief'. <i>Response from Mandi Barron: Noted and amended in later version.</i>		Julie Turner-Cobb
Approve - suggested redrafting of assurance statement around conditions of registration B1 and B2, dealt with offline. <i>Response from Mandi Barron: Noted and amended in later version.</i>		Jules Forrest
Approved		Shelley Thompson
Approved		Christa van Raalte
