Panopto - Mobile app

## Library and Learning Support

1. The Panopto Mobile app

The Panopto mobile app allows you to view BU Panopto content on a mobile device as well as allowing you to record and upload video content. The app is available for iOS (Apple) and Android devices.

2. Download the app
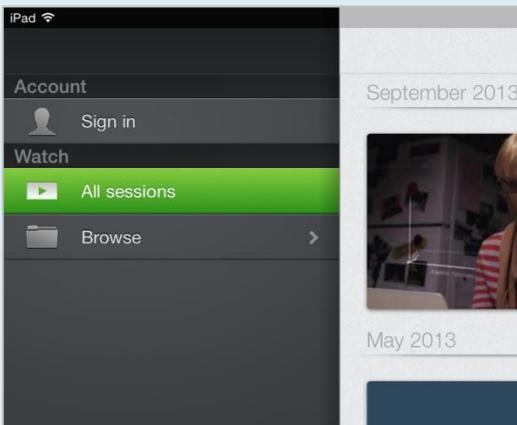

For iOS (Apple), search the App Store '**Panopto**'.

For Android, search GooglePlay for '**Panopto App for Android**'.

3. Sign in

In order to sign in to Panopto you need to be connected to the Internet. Signing in will allow you to view the BU Panopto and content available to you and upload content to the BU Panopto server.
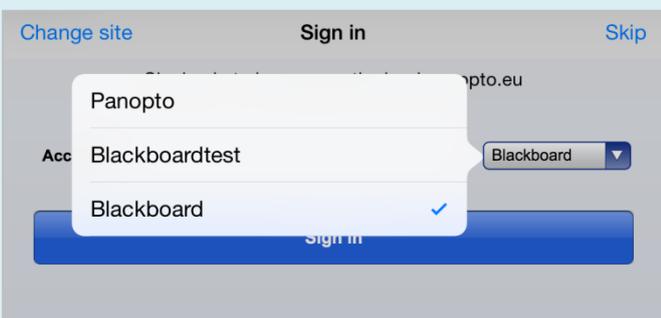

**1.** Open the App and press '**Sign In**'.

2. Set the Panopto site as **bournemouth.panopto.cloud.eu**

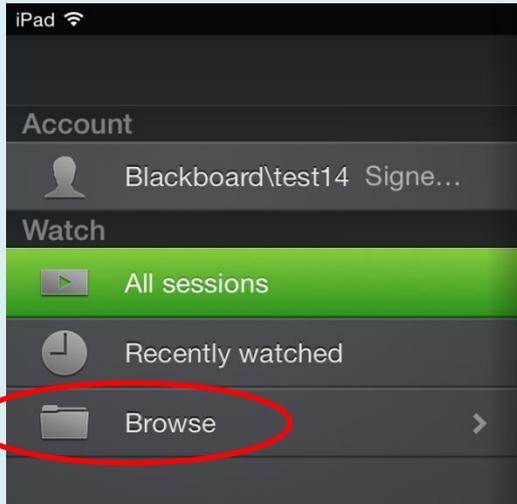

3. Set the account to **Blackboard**

4. Press the **sign in** button and log in with your myBU username and password. You may need to drag the login page into view within the sign in window.

4. View

Once logged in you will see the various Panopto folders that are available for to view.

|	
1. Click Browse to view the Panopto folders that are available to you. 	**2.** Select a folder and choose the video that you wish to view.

3. The video layout will vary depending on the device screen size.

iPad   iPhone
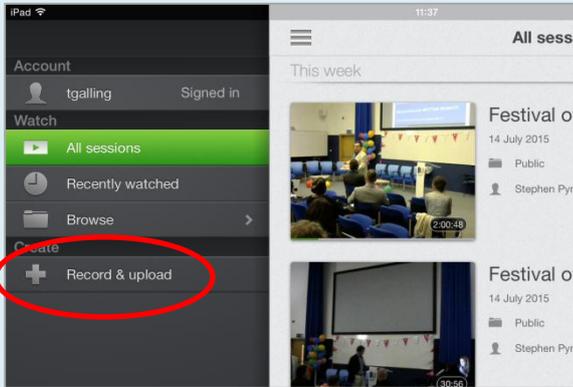

5. Capture and upload

If your account has permissions set which allow you to create content then you will be able to upload videos to the Panopto server. You can record and upload video directly within the Panopto app, or alternatively, you can upload video that has already been recorded (using your native camera app) or video that you have downloaded to your device.

Please note that video recorded within the Panopto app will only include the camera view and audio. The Panopto app will not record your device's screen activity.

If you wish to record video in locations where you will not have access to the Internet you will need to record the video using your native camera application and then upload it when you have an Internet connection.
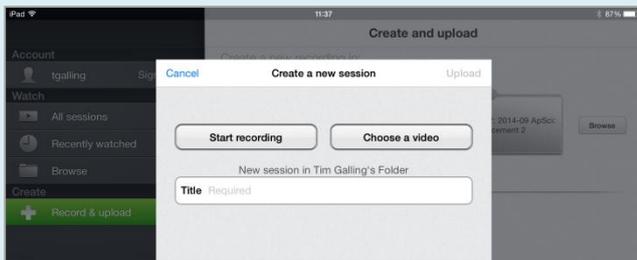

1. Press 'Record and Upload' from the menu.	**2.** Select the folder destination for your video. If you cannot see the correct folder contact learningtechnology@bournemouth.ac.uk.
3. Choose to start recording using the your built-in camera(s) or choose an existing video stored on your device.	**4.** If you have recorded a video from the Panopto app, once you are happy with it, press **'Use Video'.** The video will then be uploaded to the Panopto server.

Once your video is uploaded it will be processed and then be available on the Panopto server. If the folder you chose is linked to a unit it will be made available with that unit. If the folder is not linked to a unit then go to http://bournemouth.cloud.panopto.eu and **sign in using Blackboard** and your BU account credentials. Once signed in you can browse and view your video, collect a URL for the video and set access permissions.
