

Overview

The Performance Dashboard is a valuable tool you can use to monitor student progress throughout your unit. A summary of access and progress for each student appears in a table format. As the semester progresses, you can quickly see if students are accessing your unit regularly, reviewing unit content, and contributing to the discussion board. This information can help you identify students who are outside the normal range of participation or who need help and encouragement.

Access the Performance Dashboard

1. On the Control Panel, expand the Evaluation section and click Performance Dashboard.
2. On the Performance Dashboard page, you can view how many forums a user posted in. In the Discussion Board column, click a numbered link to view details.
3. Click on the number in the Discussion Board column for a specific student.
