What will the Turing Scheme funding cover?

Turing Scheme funding provides grants to support students with **specific costs** related to undertaking their traineeship. The amount of the grant is determined by the length of the mobility and the destination country where the work is being undertaken. The sections below outline standard funding and funding for students from disadvantaged backgrounds.

Please note that the funding provided through the Turing Scheme is intended **as a contribution towards** the overall costs of undertaking this mobility. It is **NOT INTENDED to cover the entire costs incurred**.

You will receive an initial payment of 90% of funds upfront. After your activity is complete, you will be asked to complete a feedback survey and submit a blog. The remaining 10% will be paid after these requirements have been met.

1. Funding for Students from non-disadvantaged backgrounds

This funding consists of a cost-of-living grant.

Cost of Living Grant

To calculate the cost-of-living grant, destination countries are divided into two groups based on the cost of living in each country (<https://www.gov.uk/government/publications/turing-scheme-international-study-and-work-placements/list-of-destinations-and-grant-rates>). There is no travel grant for students who are not from disadvantaged backgrounds.

1. For activities in **Group 1** countries/territories, the grants are calculated as follows:
 - a. £19 per day for activities from 28-56 days in duration
 - b. £14 per day for activities from 57-365 days in duration
2. For activities in **Group 2 or 3** countries/territories, the grants are calculated as follows:
 - a. £17 per day for activities from 28-56 days in duration
 - b. £12 per day for activities from 57-365 days in duration.

Example Grant calculations for students from non-disadvantaged backgrounds

Traineeship Location	Traineeship Duration	Calculation	Total Grant
South Korea (Group 2 Country)	14 days	£17 x 14 days	£204

2. Funding for Students from disadvantaged backgrounds

This funding consists of a cost-of-living grant, a cost-of-living uplift, and a travel grant. Additional funding is available as outlined below for other costs related to undertaking a mobility.

Cost of Living Grant

To calculate the cost-of-living grant, destination countries are divided into two groups based on the cost of living in each country (<https://www.gov.uk/government/publications/turing-scheme-international-study-and-work-placements/list-of-destinations-and-grant-rates>).

1. For activities in **Group 1** countries/territories, the grants are calculated as follows:
 - a. £23 per day for activities from 28-56 days in duration
 - b. £18 per day for activities from 57-365 days in duration
2. For activities in **Group 2 or 3** countries/territories, the grants are calculated as follows:
 - a. £21 per day for activities from 28-56 days in duration
 - b. £16 per day for activities from 57-365 days in duration.

Travel Grant

Travel grants are **up to a maximum amount** which is calculated based on the destination country. Rates for each country can be found here: <https://www.gov.uk/government/publications/turing-scheme-international-study-and-work-placements/list-of-destinations-and-grant-rates>

Actual travel grants are paid based on actual travel spend. Students will be required to submit evidence of their travel expenses. Travel expenses refer to airfare for one return journey to/from the destination country. Commuting costs in country are NOT covered. Travel grants can only cover economy travel and will not cover any upgrades.

Where the actual cost of travel is less than the maximum allowed for the destination country, the difference will be subtracted from the final grant payment or invoiced to the student for repayment if needed.

Supplemental travel funding may be available to cover real travel cost for exceptionally expensive travel.

Other Funding

- Funding may be available to offset real costs related to:
- Passport costs
- Visa costs (this can include reasonable associated costs like translated documents and police certificates)
- Vaccines
- Travel Insurance
- Medical Certificates
- Actual costs for support directly related to **additional learning needs**. Receipts are required for these costs to be covered.

Example Grant calculations for students from disadvantaged backgrounds

Traineeship Location	Traineeship Duration	Calculation	Total Grant
South Korea (Group 2 Country)	14 days	(£21 x 14 days) + up to £905 travel grant	Up to £1157

Please refer to the FCDO advice about entry requirements:

<https://www.gov.uk/foreign-travel-advice>

Visa Requirements

Applicants will be responsible to research whether they will need a visa to enter the specific country where they will undertake their mobility and how long it will take to obtain a visa. More information can be found here: [Visa/Permit Guidance for UK Students](#). Please note that the Global Engagement Hub is unable to provide additional visa advice.

Immunisations (if applicable)

Please note that you might be required by the host organisation/partner university to purchase a valid medical/health insurance for the duration of your stay.

Applicants are responsible for researching the types of insurance they are required to carry for their destination country. Some countries require specific medical insurance to meet visa conditions (ex: to obtain the relevant visa for a traineeship in the USA, you must hold insurance with \$100,00 or medical benefits, \$25,000 for repatriation of remains, \$50,000 for medical evacuation, and \$500 deductible for accident or illness).

- **BU MUST approve travel before you depart.** Your travel plans should be in line with UK Foreign Correspondence and Development Office advice. Travel approval will be made on a case-by-case basis within two weeks of the start of the traineeship and, where travel is not possible, you may be able to start work remotely, depending on your host organisations requirements.
- Funding will only be paid where physical travel takes place and BU has approved travel in advance.
