

- ~ Creating a global network of collaborators connected in academia, business, government and the wider community ~
- ~ Offering access to our expertise and excellence across the fusion of education, research and practice ~

## ASEAN Hub

**ASEAN Hub is Bournemouth University's Hub of Practice for those countries that make up the ASEAN region.**

The first of several Hubs around the world, the ASEAN Hub will consist of a regional network of partners from Industry, Government, Professional Bodies and Education. Our vehicle for knowledge co-creation with staff, students and employers, the ASEAN Hub seeks to further our understanding of—and commitment to—the ASEAN region.

**Our mission: To positively impact policy and practice in the ASEAN region across multiple organisations, governments and societies.**

To achieve this, we are bringing together a community of researchers, educators, practitioners and students, both at Bournemouth University and in the region, to focus on interdisciplinary collaborations. By bringing together people, by linking minds and communities, we hope to engender change, both in ourselves and in the areas we work in.

### **Current projects include:**

- Research workshops and CPD training with local partners
- Destination ASEAN mobility programme for BU students
- Creative talent development in Malaysia's Global Tech Hub Cyberjaya
- Emerging events tourism in ASEAN
- Host for the upcoming global Festival of Learning in 2017.

### **Collaborate with us:**

If you have business or educational links in the ASEAN region and would like to contribute to the ASEAN Hub, then please contact:

Clive Allen - Principal Investigator  
Malcolm McIver - Co-Investigator
