AIMS OF THE DOCUMENT

The aims of this document are to:

- Present the background to the BA (Hons) Events Management
- Define the structure of the BA (Hons) Events Management
- Identify the programme and the level learning outcomes
- Articulate the regulations governing the BA (Hons) Events Management award

AIMS OF THE PROGRAMME

This programme is located within the BU Business School and provides a programme which is both professional and contributes to the strategic plan of Bournemouth University. The programme is designed to provide the opportunity for students to acquire an academically rigorous education in the events management field, whilst at the same time developing professional, intellectual and inter-personal skills.

This programme will produce graduates who have developed the skills employers are seeking, including inter-personal, communication and information technology skills. This matches recent studies that identify the changing skills base of the professions that suggest employers are increasingly looking for the 'softer' skills of communication, general management and technological adeptness. The Chartered Management Institute have published their 21st Century Leaders Report (Feb 2018), which states that the top five skills employers want from 21st century leaders are: taking responsibility; people management skills; honest & ethical approaches; problem solving & critical analysis; collaboration & team working. This programme meets these in the following ways through its aim to develop critically informed, agile and resourceful graduates who:

1. Demonstrate a systematic understanding of the principles and methods of working informed by current research and industry best practice that are appropriate to the event industry.
2. Deploy established techniques of analysis and critical enquiry to evaluate the complexity of the global nature of the events industry.
3. Demonstrate conceptual understanding of current research and industry best practice in order to solve problems, make decisions and develop innovative solutions appropriate to the challenges of the event industry.
4. Have an appreciation of the uncertainty, ambiguity and limits of knowledge within the complex and evolving event industry.
5. Demonstrate an ability to critically evaluate arguments, assumptions, abstract concepts and data to address contemporary societal challenges, including at the level of the local and global, and to include social policy agendas.
6. Are self-reliant, self-disciplined learners capable of using scholarly materials and primary sources appropriate to working in an interdisciplinary environment.
7. Demonstrate an ability to communicate ideas, problems and solutions across different media to specialist and non-specialist audiences.
8. Are able to manage their personal career development and lifelong learning to meet the challenges presented by a career in a national or international environment appropriate to the event industry.
9. Have developed analytical techniques and problem-solving skills that can be applied in many types of employment.

This is a full time sandwich programme that aims to give students a thorough understanding of the events industry as well as the managerial perspective on running events organisations. This programme addresses the industry's needs for graduates with the knowledge, skills and competencies to take up a variety of roles within the events industry and related sectors.

ALIGNMENT WITH THE UNIVERSITY'S STRATEGIC PLAN

Programme Specification - Section 2

Bournemouth University's vision states: "We are recognized world-wide as a leading university for inspiring learning, advancing knowledge and enriching society through the fusion of education, research and practice".

The university's strategic plan is set out in the document 'BU 2025'.

We have established our distinctive Fusion culture and communities

A1: We have a worldwide reputation for our distinctive co-created Fusion approach

A2: Our vibrant Fusion communities are collaborative, inclusive and resilient and connected world-wide

A3: The BU learning experience is personalised, inter-disciplinary and consistently excellent

Our students and staff thrive through Fusion

B1: We attract and develop students and staff who thrive as lifelong learners through Fusion

B2: Staff lead in their disciplines and professions and as members of high performing teams

B3: We have a diverse and inclusive environment that enables achievement for all

We are a catalyst for sustainable social, environmental and economic growth and development

C1: We are a catalyst for impact by advancing knowledge, creativity and innovation

C2: We drive social and economic growth and development through our staff, students and graduates

C3: We support the development of the region and lead thinking on sustainability

We enrich society by having a significant impact on challenges world-wide

D1: Through Fusion we have a positive impact world-wide on the challenges facing society

D2: Staff, students and graduates enrich society as active citizens in their communities

D3: Our worldwide partnerships strengthen our shared impact

The BA (Hons) Events Management degree is aligned with the strategic plan in the following ways:

- It seeks to fuse education, with the research and professional practice experience of the teaching team (A1 & A2);
- It involves partnerships with the events industry at a local, regional and national level with strong emphasis and influence on the sustainability agenda (C3);
- It has a strong international focus in the range of case studies used in teaching; in the opportunities for student placements; in the opportunity to study abroad; and in the opportunity for dissertation research. Students will therefore gain a global perspective and understand events as global citizens (D2);
- The curriculum is underpinned by the established international excellence of the Department of Events & Leisure (B2);
- The curriculum includes opportunities for real-world learning opportunities (in the form of guest speakers, field visits and the opportunity to undertake a work placement) (A2 & A3);
- The programme prepares students with the skills and experience to meet the changing demands of the workplace & society (C1 C2 & C3) and will enable students to develop high-level graduate skills (B1 & D2);
- The programme seeks to inspire students to make a difference to the world and in particular an inclusive and diverse 21st century (C3 & D1).

Programme Specification - Section 2

The BA (Hons) Events Management programme is underpinned by the BU values of *excellence* (in teaching, research and professional practice); *inclusivity* (enabling fair access, equality and diversity in an inclusive and welcoming community); *creativity* (cultivating an enquiring spirit, creative approaches and innovation, and taking advantage of opportunities to learn from other cultures and societies); and *responsibility* (a commitment to ethics and sustainability in the teaching of events management).

LEARNING HOURS AND ASSESSMENT

Bournemouth University taught programmes are composed of units of study, which are assigned a credit value indicating the amount of learning undertaken. The minimum credit value of a unit is normally 20 credits, above which credit values normally increase at 20-point intervals. 20 credits is the equivalent of 200 study hours required of the student, including lectures, seminars, assessment and independent study. 20 University credits are equivalent to 10 European Credit Transfer System (ECTS) credits.

The assessment workload for a unit should consider the total time devoted to study, including the assessment workload (i.e. formative and summative assessment) and the taught elements and independent study workload (i.e. lectures, seminars, preparatory work, practical activities, reading, critical reflection).

Assessment per 20 credit unit should normally consist of 3,000 words or equivalent. Dissertations and Level 6 and 7 Final Projects are distinct from other assessment types. The word count for these assignments is 5,000 words per 20 credits, recognising that undertaking an in-depth piece of original research as the capstone to a degree is pedagogically sound.

STAFF DELIVERING THE PROGRAMME

Students will usually be taught by a combination of senior academic staff with others who have relevant expertise including – where appropriate according to the content of the unit – academic staff, qualified professional practitioners, demonstrators/technicians and research students.

INTENDED LEARNING OUTCOMES – AND HOW THE PROGRAMME ENABLES STUDENTS TO ACHIEVE AND DEMONSTRATE THE INTENDED LEARNING OUTCOMES
