Year 2/Level 5

Students complete 4 core units and 2 option units.

To ensure a high-quality student experience, option units require minimum numbers to run and so they may only be available on a semester-by-semester basis. We will continually review options units to ensure that they remain current and relevant and so the options units may change from year to year. In instances of changes, students will be notified in advance of a semester starting.

Progression requirements: Requires 120 credits at Level 5.

Exit qualification: Diploma of Higher Education (DipHE) Sport Coaching (requires 120 credits at Level 4 and 120 credits at Level 5).

Compulsory/Optional placement year in industry/business:

Students must complete a compulsory placement of 6 weeks ('short') as part of a 3-year full-time degree or a minimum of 30 weeks ('long') as part of a 4-year Sandwich degree. Placements are normally required to be completed prior to progression to Level 6.

A short placement is usually completed between Level 4 and Level 5 or between Level 5 and Level 6.

A long placement should be completed between Level 5 and Level 6. Exemption for the long placement is possible where a student has worked in industry/business at a relevant level. Exemptions are subject to approval by the Accreditation of Prior Learning (APL) Board.

Detailed guidance on Placements is given within the BUBS Placement Handbook.

Progression requirements: A minimum of 120 credits at Level 5, and satisfactory completion of either a short placement (6-week) as part of a 3-year degree award, or a long placement (30-week) as part of a 4-year sandwich degree.

Programme Specification – Section 1

Year 3/Level 6

Students on BSc (Hons) Sport Coaching are required to complete 120credits at Level 6.

*This includes the completion of either a final year Dissertation (40credit or Applied Sport Project (40credits) and one core unit (Advancing Coaching Practice – 20 credits). The remaining 80credits will derive from students selecting three optional units.

To ensure a high-quality student experience, option units require minimum numbers to run and so they may only be available on a semester-by-semester basis. We will continually review option units to ensure that they remain current and relevant and so the option units may change from year to year. In instances of changes, students will be notified in advance of a semester starting.

AIMS OF THE DOCUMENT

The aims of this document are to:

- define the structure of the programme;
- specify the programme award titles;
- identify programme and level learning outcomes;
- articulate the regulations governing the awards defined within the document.

AIMS OF THE PROGRAMME

This programme aims to develop critically informed, agile, and resourceful sport coaching graduates, who:

1. Possess a coherent, detailed knowledge and understanding of the industry of sport coaching and its underpinning theories, principles, and concepts.
2. Critically evaluate a range of sport coaching contexts and systematically apply knowledge to industry practices and are able to identify areas of weakness within existing practice in order to provide appropriate interventions which are ethical, sustainable, and relevant within the sport coaching industry.
3. Clearly demonstrate applied understanding of core theories, concepts, and research within the sport coaching landscape.
4. Demonstrate personal professional skills associated with ethical and sustainable coaching practice to be able to lead and influence in sport contexts and scenarios ranging from community interventions, grassroots sport through to professional and elite sporting environments.
5. Possess key qualities such as initiative, personal responsibility, ethical understandings of diversity and inclusion, critical thinking, and decision-making skills to successfully transition into the workplace or into further study based on their applied experiences throughout the degree programme.

ALIGNMENT WITH THE UNIVERSITY'S STRATEGIC PLAN

BSc (Hons) Sport Coaching is aligned with Bournemouth University's 2025 (BU2025) strategic vision to be recognised world-wide as a leading university for inspiring learning, advancing knowledge, and enriching society through the fusion of education, research, and practice. Whilst all BU2025 themes are reflected in aspects of this Sport Coaching degree programme, those best reflected are the themes of *Health and Well-being* and Business and *Economic Sustainability*. The BU2025 core values of inclusivity and responsibility and of impacting society are explicitly reflected in the aims and outcomes of the Sport Coaching degree which seeks to enhance sport and society through ethical and sustainable coaching practice in a range of contexts. The curriculum is research-led and strongly industry informed through our extensive links with practitioners, graduates, and partners (e.g., AFC Bournemouth). It contains opportunities for students to co-create and engage with industry bodies, such as, including local community groups, businesses, and elite sport clubs through, and in addition to, learning and assessment strategies. This Sport Coaching programme embeds a distinctive *Fusion learning approach* into content delivery and assessment.

The programme contains opportunities for students to co-create and engage with industry including local community groups and elite sport clubs through learning and assessment strategies. There is a comprehensive range of co-curricular learning opportunities for students to enhance their experience and develop transferable skills for employment or further study, and all students have the opportunity to engage in a placement (minimum 6 weeks) and international study. Crucially the Sport Coaching degree provides clear opportunities for interdisciplinary learning within and across units of study offered

Programme Specification - Section 2

from BSc (Hons) Sport and Exercise Science and BSc (Hons) Sport Management whilst maintaining a distinctive sport coaching focus that is underpinned by BU2025 values. The Sport Coaching curriculum supports students to develop graduate attributes including collaboration and teamwork, citizenship and societal contribution, global outlook and innovation and entrepreneurship.

More detail about Bournemouth University's Strategic plan can be found [here](#).

LEARNING HOURS AND ASSESSMENT

Bournemouth University taught programmes are composed of units of study, which are assigned a credit value indicating the amount of learning undertaken. The minimum credit value of a unit is normally 20 credits, above which credit values normally increase at 20-point intervals, and is the equivalent of 200 study hours required of the student, including lectures, seminars, assessment, and independent study. 20 University credits are equivalent to 10 European Credit Transfer System (ECTS) credits.

The assessment workload for a unit should consider the total time devoted to study, including the assessment workload (i.e. formative and summative assessment) and the taught elements and independent study workload (i.e. lectures, seminars, preparatory work, practical activities, reading, critical reflection, and practice through placements).

Assessment per 20 credit unit should normally consist of 3,000 words or equivalent. Dissertations and Level 6 Final Projects are distinct from other assessment types. The word count for these assignments is 5,000 words per 20 credits, recognising that undertaking an in-depth piece of original research as the capstone to a degree is pedagogically sound.

STAFF DELIVERING THE PROGRAMME

Students will usually be taught by a combination of senior academic staff with others who have relevant expertise including – where appropriate according to the content of the unit – academic staff, qualified professional practitioners, demonstrators/technicians, and research students.

ADMISSION REGULATIONS

The entry requirements can be viewed on the university website: [Courses | Bournemouth University](#)

PROGRESSION ROUTES

Recognition arrangements provide formally approved entry or progression routes through which students are eligible to apply for a place on a programme leading to a BU award. Recognition does not guarantee entry onto the BU receiving programme only eligibility to apply. In some cases, additional entry criteria such as a Merit classification from the feeder programme may also apply. Please see the [recognition register](#) for a full list of approved Recognition arrangements and agreed entry criteria.

ASSESSMENT REGULATIONS

The regulations for this programme are the University's Standard Undergraduate Assessment Regulations (6A Standard Assessment Regulations Undergraduate). ***All documents can be accessed [here](#).***

WORK BASED LEARNING (WBL) AND PLACEMENT ELEMENTS

All undergraduate students will undertake a form of placement as it is recognised that placement is a key driver of employability. The length of placement is optional. Students can complete a one-year (minimum 30 week) placement as part of a four-year degree programme or a summer (minimum 6 week) placement as part of a three-year degree. Placements are not defined as a unit. Placements are normally required to be completed prior to progression to Level 6.
