AIMS OF THE DOCUMENT

The aims of this document are to:

- define the structure of the programme;
- specify the programme award titles;
- identify programme and level learning outcomes;
- articulate the regulations governing the awards defined within the document.

AIMS OF THE PROGRAMME

The MA Producing Film and Television programme aims to cultivate enthusiastic graduates able to conceptualise, develop, execute and critically assess innovative projects with a deep understanding of creative media cultures from a producer's perspective. The programme emphasises the producer's role in developing well-researched and creative projects that are, importantly, achievable within an ever-changing industry context. From this perspective, specific focus is placed on enhancing conceptual thinking through a practical, hands-on learning experience.

Across the programme, students will develop their abilities to communicate their practical intentions effectively via a diverse range of methods, including for example collaborative workshops, pitching sessions and the production of unit-relevant artifacts. Students will integrate critical analysis skills with creative development practice in order to professionally manage projects at a standard that demonstrates thought-provoking originality, intellectual rigor and industry awareness.

ALIGNMENT WITH THE UNIVERSITY'S STRATEGIC PLAN

This programme is informed by and aligned with the BU 2025 strategic plan and fusion ethos to inspire learning, advance knowledge and enrich society through the fusion of education, research and practice. The BU 2025 values of excellence, inclusivity, creativity and responsibility are woven throughout the programme.

LEARNING HOURS AND ASSESSMENT

Bournemouth University taught programmes are composed of units of study, which are assigned a credit value indicating the amount of learning undertaken. The minimum credit value of a unit is normally 20 credits, above which credit values normally increase at 20-point intervals. 20 credits is the equivalent of 200 study hours required of the student, including lectures, seminars, assessment and independent study. 20 University credits are equivalent to 10 European Credit Transfer System (ECTS) credits.

The assessment workload for a unit should consider the total time devoted to study, including the assessment workload (i.e., formative and summative assessment) and the taught elements and independent study workload (i.e., lectures, seminars, preparatory work, practical activities, reading, critical reflection and *practice*).

Assessment per 20 credit unit should normally consist of 3,000 words or equivalent. Dissertations and Level 6 and 7 Final Projects are distinct from other assessment types. The word count for these assignments is 5,000 words per 20 credits, recognising that undertaking an in-depth piece of original research as the capstone to a degree is pedagogically sound.

STAFF DELIVERING THE PROGRAMME

Students will usually be taught by a combination of senior academic staff with others who have relevant expertise including – where appropriate according to the content of the unit – academic staff, qualified professional practitioners, demonstrators/technicians and research students.

ADMISSION REGULATIONS

The regulations for this programme are the University's Standard Postgraduate Admission Regulations with the following amendments:

Applicants whose mother tongue is not English must offer evidence of qualifications in written and spoken English. Acceptable qualifications are:

- IELTS (academic) 6.5 (with a minimum of 6.0 in each of four categories)

In addition to the benchmark criteria above applicants will normally be assessed by means of an interview and/or submission of a portfolio of written work. As far as possible, applicants will be interviewed face to face, although phone interviews will be considered for non-UK applicants. This interview examines motives, background and professional competence, and gauges standards of English, comprehension and intellectual range.

Bournemouth University International College Articulation

Applicants from Bournemouth University International College programmes which have approved articulation routes must meet the minimum entry requirements in terms of course average and English requirements as stipulated by the Faculty of Media and Communication at Bournemouth University.

***Articulation routes are approved to the following programmes on the Postgraduate Framework: MA Directing Film and Television; MA Post Production Editing; MA Producing Film and Television; MA Radio Production; MA Scriptwriting; MA Cinematography for Film and Television; MA Sound Design for Screen.**

The University's standard Admission Regulations are available here <https://intranetsp.bournemouth.ac.uk/pandptest/3a-postgraduate-admissions-regulations.pdf>

PROGRESSION ROUTES

Recognition arrangements provide formally approved entry routes through which students are eligible to apply for a place on a programme leading to a BU award. Recognition does not guarantee entry onto the BU receiving programme only eligibility to apply. In some cases, additional entry criteria such as a Merit classification from the feeder programme may also apply. Please see the Recognition Register (https://intranetsp.bournemouth.ac.uk/pandptest/7J_Recognition_Register_Public.xlsx) for a full list of approved Recognition arrangements and agreed entry criteria.

In order to take advantage of exciting new approaches to learning and teaching, as well as developments in industry, the current, approved recognition route(s) for this programme may be subject to change. Where this happens students will be informed and supported by the Faculty as early as possible.

ASSESSMENT REGULATIONS

The assessment regulations for this programme are the University's Standard Postgraduate Assessment Regulations.

Regulations for PG taught programmes are here: <https://intranetsp.bournemouth.ac.uk/pandptest/6a-stand-ard-assessment-regulations- postgraduate.pdf>

WORK BASED LEARNING (WBL) AND PLACEMENT ELEMENTS

Placement is an option made available. However, as the programme is a one year full-time non- vocational degree, it becomes challenging for students to undertake during the intensive study of one year, and would have to occur during semester three in tandem with dissertation/major project. For part time students, placement is a more feasible option, and would fall during semester three of year one. Should a student request a placement we advise this to be a minimum of four weeks.

The placement provides the opportunity for students to integrate the academic and skills-based learning acquired from units during the previous semesters, enabling students to analyse and evaluate their own learning in the context of self and employer appraisals. It allows students to develop their abilities and understanding of English and Literary Media and related subjects, and provides a platform for successful entry into the profession following graduation.

Graduation is not conditional on completing a placement and placement is not defined as a credit- bearing unit. It is assessed on a pass/fail basis using the log book and employer appraisal. Students must have completed their placement the minimum of four weeks before the final Assessment Board. If undertaken, to complete a placement students must:

- Complete a minimum of 4 weeks satisfactory work experience;
- Complete the placement log book satisfactorily; this may include assignments relating to the nature of their work and the organisation they are working in;
- Satisfactorily meet the performance criteria of the placement as determined by the completed assessment forms from the company, the Placement Development Advisor and the student.
