Progression requirements: A minimum of 80 credits is necessary to progress to the Research Project. Students will normally have completed 120 credits before proceeding to the placement but this requirement may be relaxed in the case of a student who needs to resit an assessment. In such cases, decisions will be made on an individual basis and in the best interests of the student. Passing the (optional) Placement is not necessary in order for students to progress to the Research Project.									
Exit qualification: PGCert Finance requires 60 Credits (30 ECTS) PGDip Finance requires 120 Credits (60 ECTS)									
Placement The 30 week placement is optional for students. The placement starts after they have completed all taught units. The placement is not credit-bearing and is assessed on a pass/fail basis (ie satisfactory completion of 30 weeks). The placement will appear on a student's degree transcript. Students are required to find their own placements. Students must comply with any visa requirements.									
Placement	Option	0		Pass/ Fail		5	1.0

Exit qualification: MSc Finance requires 180 Credits (90 ECTS)									

¹ These assessment element weightings should correspond to summative elements of assessment as defined in the unit specification. Where the element pass mark is higher than normal for PSRB purposes, this should be reflected as a pass/fail within the programme structure or Student Administration should be asked to adjust the Student Record System so that no inflation of marks appears on the Assessment Board Report.

AIMS OF THE DOCUMENT

The aims of this document are to:

- define the structure of the programme;
- specify the programme award titles;
- identify programme and level learning outcomes;
- articulate the regulations governing the awards defined within the document.

AIMS OF THE PROGRAMME

This programme aims to develop critically informed, agile and resourceful graduates, who:

- have the versatility and professional qualities necessary to work in global finance context;
- are critically aware of the wider impact of financial decisions on organisational stakeholders and the wider economy;
- have highly-developed interpersonal and analytical skills;
- are able to manage their own personal development and lifelong learning.

ALIGNMENT WITH THE UNIVERSITY'S STRATEGIC PLAN

The proposed framework will create a stimulating, challenging and rewarding university experience through a clear focus on Bournemouth University's strategic plan (BU2025) and the university's unique fusion of excellent research, education and professional practice. This approach will inform our teaching practices, which will focus on professional and research informed content. The business school is dedicated to being an internationally recognised thought-leader and has a team of talented staff with excellent reputations in terms of outstanding or emerging research and professional practice. Moreover, our staff will utilise their talents to create an exceptional student learning experience through the use of inspirational and technology enhanced teaching methods. Students will be provided with an opportunity to learn from this integration of professional practice and cutting-edge research through the use of work-related learning materials and real-world and problem solving assessment.

LEARNING HOURS AND ASSESSMENT

Bournemouth University taught programmes are composed of units of study, which are assigned a credit value indicating the amount of learning undertaken. The minimum credit value of a unit is normally 20 credits, above which credit values normally increase at 20-point intervals. 20 credits is the equivalent of 200 study hours required of the student, including lectures, seminars, assessment and independent study. 20 University credits are equivalent to 10 European Credit Transfer System (ECTS) credits.

The assessment workload for a unit should consider the total time devoted to study, including the assessment workload (i.e. formative and summative assessment) and the taught elements and independent study workload (i.e. lectures, seminars, preparatory work, practical activities, reading, critical reflection).

Assessment per 20 credit unit should normally consist of 3,000 words or equivalent. Dissertations and Level 6 and 7 Final Projects are distinct from other assessment types. The word count for these assignments is 5,000 words per 20 credits, recognising that undertaking an in-depth piece of original research as the capstone to a degree is pedagogically sound.

STAFF DELIVERING THE PROGRAMME

Students will usually be taught by a combination of senior academic staff with others who have relevant expertise including – where appropriate according to the content of the unit – academic staff, qualified professional practitioners, demonstrators/technicians and research students.
